Camilion Ranked as One of Canada's Fastest Growing Technology Companies

130% Revenue Growth Earns Recognition as "Top Mover and Shaker"

TORONTO, ON – March 27, 2007 – Camilion Solutions, a leading provider of software solutions for the insurance industry, today announced that it has been named one of the fastest growing IT companies in Canada in the 2007 edition of the Branham300, the premiere ranking of Canada's tech companies. Camilion also ranked fourth on the Branham's "Top 20 Movers and Shakers" list which acknowledges the companies that, through remarkable performance, saw the most significant increase in their Branham ranking.

Camilion moved up 43 spots in the Branham300 List by achieving 130 per cent revenue growth in 2006. The world's largest insurers are increasingly choosing Camilion for their business-transforming solutions and their proven ability to rapidly execute clever, repeatable solutions on a global scale.

"This is Camilion's first year on the Top 20 Movers and Shakers list – reflective of the impressive revenue growth they have seen over the last year," said **Wayne Gudbranson, President and CEO of Branham Group**. "Camilion has certainly become a company to watch, ranking substantially higher on the Branham300 year over year."

Camilion expects continued rapid growth as their flagship product development solution, ProductAuthority™ continues to garner recognition from industry analysts and customers as the world's only 'pure' product configurator built from the ground up for the insurance market. Camilion's software solutions fundamentally change the way insurers create products allowing them to rapidly change and develop products in weeks not months – at a fraction of the cost.

“We are honored to be recognized by Branham Group for the third straight year and thrilled to be one of Backbone Magazine’s Top 20 Movers and Shakers,” said Ross Orrett, President and CEO, Camilion Solutions, Inc. “ Our rapid growth is a testament to the commitment and ingenuity of our employees, all part of a winning team that develops and implements ground-breaking solutions that help insurers get products to market faster than their competitors.”
