

**FOR IMMEDIATE RELEASE**

## **Camilion Ranks in the Branham300 List of Top Canadian Technology Companies for 4th Straight Year**

**TORONTO, ON – April 7, 2008** – Camilion Solutions, a leading provider of software solutions for the insurance industry, today announced that it has been named as one of the Top 250 technology companies in Canada in the 2008 edition of the Branham300, the premiere ranking that defines Who's Who in Canadian IT. Camilion is in good company ranking among some of the world's largest technology firms including AMD, Celestica, CGI, Nortel Networks and Research in Motion.

“Camilion's ranking is reflective of the growth and momentum this young company has shown year after year,” said Wayne Gudbranson, President and CEO of Branham Group. “With an impressive blue chip customer list of some of the largest insurance companies in the world and accelerating revenues, Camilion is certainly a company to watch.”

Camilion expects rapid growth as customer adoption continues for both their flagship product development solution, ProductAuthority® and their next-generation P&C policy administration system, Authority Suite®, which continues to receive significant industry analyst recognition for its flexible, modern technology platform.

“Recognized by Branham Group for the fourth straight year, this ranking is a testament to the commitment of our team,” said Ross Orrett, President and CEO, Camilion Solutions Inc. “Camilion has seen accelerated growth in the past six months forcing a relocation of our corporate headquarters to a facility twice the size of our previous offices. This is an exciting time for Camilion as business drivers within the insurance market fuel demand for and adoption of our solutions by an increasing number of the world's largest insurers.”

### **About Branham Group Inc.**
